**Overall Comment**

Most activities required at Anniston do not exist, mainly because of low soldier density. If a soldier COLA or facility compensation allotment be paid to the enlisted members (especially E-5 and below) it would off-set the cost of local events.

I think all services would be more effective if the employees were more aware of what is offered. Also, the morning show and e-mail are still not available to a large majority of the workforce thus making them an unreliable source of information. Hours of operation for all facilities should be clearly posted and provide ample opportunity for people on various work schedules to be able to utilize the facilities available. Also, need more information on what is needed in order to utilize the facilities offered (gym, craft shop, etc.). Those of us in the Ammo area are pretty well locked in to our work areas without transportation or management approval for such things as going to the cafeteria or off-post for lunch and we are not serviced by a mobile lunch truck. We don't have the freedom of movement that a lot of the other areas on depot allow for their employees. If you want us to use MWR services and facilities they need to be better advertised and more available for all employees whether depot, service member or tenant.

This is kind of a closed base. I am not sure if I could get family members on base if I wanted to. When I was in Japan, all of my dependents 10 years old and up were given base ID cards. My family and I used the MWR facilities there very extensively. Other than the fitness center and the lunch time food, I do not have any first hand knowledge of any MWR facilities available here. Most recreational things that I do, I do with my family. I would be interested in renting a pop-up camper at a moderate price.

customer service

**Overall Comment**

Anniston Army Depot needs to work on advertising its programs better. Though I have only been at this location I have not heard anything about what programs are offered. I did receive 1 email notification about a class to improve your management skills. When I sent an email to sign up - I never received the confirmation. I've been assigned to 2 other installations with MWR services, and one of the first things I am informed about as a new employee (particularly since I'm single) to an installation is about all the services available through MWR. It appears to me that the current, long term employees don't utilize the services much either.

I suggest concentrating on the fitness program. That is one thing that is lacking in the surrounding communities.

In 1996 due to a reduction in force I lost my position which I had held for 25 years. The reason given for the reduction in force was to cut expenses and save money. I now see vast amounts of money being wasted on buffaloes and gazebos here and I still can't get my job back. There should not be a single cent spent on MWR until myself and others who lost positions have received their grade back. If you really care about morale and welfare of employees a good place to start would be to start treating us with a little respect. I now have a total of 32 years on this installation and I've seen common criminals get better treatment than I've received. I know this is not the kind of response you want in your survey but it's the truth. Besides it's the only opportunity I have to vent my frustrations.

Tenant activities often have to rely on tracks, use other means such as flyers and email since they cannot access the intranet to inform them of happenings around the depot, more people would be interested, there needs to be things to do for teenagers from 14 to 17 there is limited activities or organizations that can help parents work and keep the children interested or out of trouble, they need more then just TV and video games during the day.

**ACS Concerns** Need services for school age children and we don't

**Overall Comment**

i know most have children, I have a problem that many here face with school age children. We need a summer program for them. I have 2 children 9 and 10 years of age, and one that is 13. My problem is that I have been searching for over a month for a youth center or some place to take my children for summer daytime hours while I work. The daycare centers only take children up to 11 years of age so what do we do with our children 12, 13, and 14 is to young to be left at home alone for 12 to 13 hours while we are away at work. I don't know why there's not some program for our children for those ages. To many things can happen for tha long of time alone. And who wants their children laid up in front of a TV or game all day long all summer long, that's not healthy.  
So I and many others like me would greatly support a program for our children.

The one MWR facility that ANAD needs to really offer the workers is a child development center which the parent can drop the child off when arriving to work and if needed check on the child during the day. This would promote a more stable environment for both parent and child.

It would be wonderful to have a child care center on post. A swimming pool, anything that the family could get together and do together. The food in the cafeteria is horrible. If you have to eat off one of the trucks, the price is extremely higher than it is in the cafeteria, and the driver of the truck says if you don't like it, walk to the cafeteria. The hot food you get is cold and the cold food you get is hot. I would rather eat out of a vending machine than eat off the truck. I work to far away to walk to the cafeteria. The few times I have been able to go to the cafeteria, the service was poor, the people rude and the food was horrible. There were no real choices. Even the schools in the area offer the kids choices; ex salad bar, taco bar, baked potatoe bar etc.

51. I enjoy using the small Fitness Center on the east side of the post at lunch time when it's cold or rainy. That facility needs more treadmills, cross-trainer machines and some exercise bikes that work.

54. I love books on tape and it would be great if I could get them from a library on post to listen to on my way to and from work. I do not like trashy modern fiction, but I enjoy youth and children's books, classics, nonfiction, and books that reflect high moral values and ethical standards.

Overtime and my living 86 miles from post limit my participation in many activities. I would only be able to participate in jazzercise classes at lunch time.

### Overall Comment

Accessibility to Anniston Army Depot makes it extremely difficult to imagine participating in any viable MWR activity/program. There are an extraordinary number of retirees in the local area who would love to have use of MWR activities, but most of us aren't even aware that many programs even exist at the Depot. Personally, I've known of the availability of the Gym, and the ability to purchase tickets for Disney World, but that's pretty much the extent of it.

In answering this survey, I've felt that 92% of it didn't even apply to me living in this area. Nothing would please me anymore than to be able to reap some of the benefits of having served in the military, such as enjoying all the rights and privileges of MWR activities that are made available.

Base closed in my immediate community; would like to see more services at Anniston Army Depot

**Overall Comment**

Since Fort McClellan Alabama closed, my family and I really feel like we are isolated from what we found very near and dear - military facilities and MWR. Making MWR available at Anniston Army Depot would be great. This has to be communicated very well to our community members (active duty, retired, reserves, and national guardsmen). This is greatly needed in this area.

Support Groups, sharing information, whats new. Retiree day.

Prior to the new restrictions on on-post access, my family and I used the Depot gym and the small PX. We had intended to use the PX more with the closing of the PX/Commissary - Ft McClellan, but have not. I am totally unaware of any other facilities available to retiree's on the depot. We have not tried to go on post at the Depot this past year. As a thirty year member of the Army, I think just showing Military ID along with drivers license should be sufficient to access the gym and PX. I do understand the need for security.

I do not feel that my local installation cares anything about retired military, active military, retired civilians, or it's own employees. Their treatment of the above people is like the people are simply people to use like robots not people, and their people who preform the work task should have no say so in how their work stations are set up or better ways to perform their assigned task that are within regulator requirement. This installation is a true diciatorship of directors where employees have no one to help them when they are done wrong. This in itself makes people very happy when they can stay away from the installation because of the harrassment one must put up with working or not.
